Col. Beverly Kennon's Will. Yesterday the will of the late Beverly Kennor of Paitimore was filed, proven and admitted to probate and record, and letters were issued to the widow, Genevieve G. He leaves his estate to his wife, who he names as executrix, conditioned on her not ity from the To-Kalon Wine Company, 614 14th calling on any of her or his family in the man-agement. He refers to a claim of \$7,000 for the construction of a battery at Alexandria, Egypt, and claims for Texas lands, and he in-structs the executrix to have his "Notes on the Fort Hudson" overhauled by some friend, but no relation to either, and published. He says: "My family, having done but little if anything for me, have no chain to share the little I have left behind me. In 1861 I sacrificed all at that time in their interest; they therefore can claim nothing now. I am in the full enjoyment of health.

THE REMARKABLE SUCCESS of the Union Credit Company in the few weeks of its ener-getic work here is unmistabable evidence not only of its intrinsic merit, the skill and vigor with which it is being presented to our mer-chants, but also of the crying need of so per-fect a protection against that carse of all business life, abuse of credit. The funeral of United States Senator Wilson Virginia, cloudiness and light flurries of snow this evening: southerly, shifting to westerly were no religious services in the Senator's late residence. At the Mackenzie Memorial Presbyterian Church the Rev. D. B. Fitzgerald conducted the exercises. The Congress committee preceded the body into the church. After & Scripture lesson and prayer, Rev. Mr. Fitzgerald preached the sermon. It was an eloquent tribute to the late Senator. At the close of the exercises the coffin was borne from the church to the adjoining cometery, and the body of Mr. Wilson was laid by the side of his kindred. Immediately after the funeral the Congress committee returned to Washington. Bells were tolled and business was generally suspended during the funeral services.

Some days ago the papers in the case of Privates Paul Kersten and H. C. Olmstead of the police force, who were recently tried for violation of one of the rules of the manual in leaving their beats or "hoodling," as the police call, it, came up in the board room for action. The police trial board which tried these men recommended that they be fined \$25 each payable in five monthly installments. The Commissioners de-cided to dismiss the men and issued an order to that effect, but in view of the precedent which has heretofore existed, that of fining men for this offense, it was decided to suspend the order, for it was mani-festly unjust to dismiss a man for a crime which heretofore had only been pun-ished by a fine. Yesterday the Commissioners heard the case of a certain officer who was dis missed for drunkenness, and during the hearing he asked a suspension of sentence in his case, and cited the cases above referred to as precedents, whereupon the Commissioners not only refused to reconsider his case, but called up the cases of Privates Kersten and Olmsted and revoked their order suspending sentence in their cases and dismissed them to take effect the 28th instant.

The Commissioners yesterday issued an order to the effect that hereafter contractors be compelled to deposit \$25 with the engineer department as a guarantee that the debris incident to excavations for building and other purposes be removed by the con-tractor, who is also to make good any damages or forfest the guarantee.

ILLEGAL CONNECTIONS MADE. The inspector of plumbing yesterday reported to the Commissioners that Bernard Leonard, a real estate agent, has connected eight houses on 3d street between I and K southwest by means of one sewer lateral in violation of the plumbing regulations, and requests that the matter be referred to the attorney for the District for prosecution in the Police Court.

DRS. FRENCH.

Indorsed by Many Grateful Patients. Mr. Henry Bush, whose portrait occurred in the papers, is a well-known, highly respectable and prominent resident of Georgetown. His remarkable cure has caused a great deal of comment among the medical fraternity, and sent scores of people to see him. It will be remembered that he had been hopelessly afflicted with kidney disease and hardening of the liver. Specialists had said these organs were in an incurable condition. He now reports more favorably and says he knows that his health has come to stay.

In conversation with the doctors we learn that they have cured the most melancholy cases of epilepsy by magnetism alone, even after all known remedies had failed.
